

Striving for Excellence

VISION

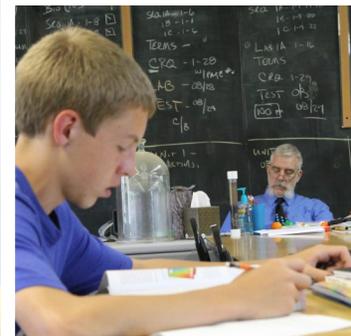

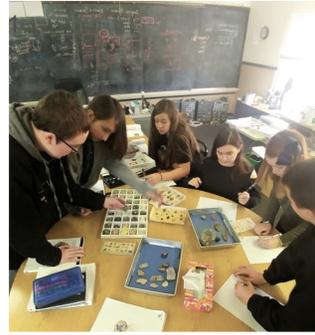

The vision of William Bradford Christian School is to glorify God, strengthen the family, promote patriotism, while achieving high standards of academics.

PHILOSOPHY

William Bradford Christian School partners with parents to provide a Christian education that leads students to the Cross of Jesus. Bradford believes that all knowledge should be filtered through the Word of God and that our job as educators is to teach students to measure everything they learn against the Truth of the Bible. We strive to foster a learning environment that is student driven; meeting the needs of individual students. We seek to help each student discover his/her personal talents and uncover his/her purpose for God.

MISSION

The mission of William Bradford Christian School is to provide a Christ centered learning environment that is an extension of the home."

Christ-centered

OUTREACH

Students build and strengthen their relationships with Jesus through fellowship with other students, teachers and others outside the traditional educational experience. These unique opportunities build strong ties between teachers and students that facilitate the impartation of wisdom and knowledge both inside and outside the classroom.

QUALITY EDUCATION WITHOUT BIBLICAL COMPROMISE

WBCS strives to challenge and inspire college-bound students to know and honor Jesus Christ, seek God's truth and wisdom, pursue excellence so that they might "grow in wisdom and stature and in favor with God and men."

Luke 2:52
